<b>TO:</b> Jennifer Harrington Park City - Planning Div.	<b>FROM:</b> Susan Kennedy , (E&E) 	<b>DATE</b> 9/4/85	
		<b>TIME</b> 0930	
<b>SUBJECT</b> Resident Population of Park City During Winter Months.		 38008	
<b>SUMMARY OF COMMUNICATION</b> Ms. Harrington provided the following information: <ul style="list-style-type: none"><li>- The permanent year-round population of Park City is 4500.</li><li>- Although as many as 10,000 (permanent population plus number of guest beds) people may stay in town during five to ten days of the peak winter season, this additional population is transient.</li><li>- No information is available of the average winter population including permanent and transient.</li></ul> <p>When asked if the winter population is higher than summer population due to support workers at restaurants, hotels, etc., Ms. Harrington stated the change is insignificant because an equal number of summer residents spend the winter months elsewhere.</p>			
<b>CONCLUSIONS, ACTION TAKEN OR REQUIRED</b> <p>For HRS purposes, the population of Park City is 4500 which includes transient workers, but excludes travelers passing through the area.</p>
